

2018 BIG LOVE TARGETS WASTE REDUCTION

ReWorks appreciated the opportunity to provide guidance and consultation to the 2018 Big Love's Zero Waste efforts. Special thanks to Steve Larson, the Director of Zero Waste for the Big Love Network.

Big Love **Reduced** what the event generated from 2017 to 2018 by:

Food Scrap & Compostables 50.83%

Recyclables 84%

Landfill 60%

73% **Reduction in total waste**
(composted, recycled and landfilled)

Imagine holding 4 dice. That's 16.4 grams, the amount of material landfilled per person at 2018's Big Love.

We also extend a thank you to Big Love's other supporters:

DANIEL HARRIGAN, MAYOR

Zero Waste Volunteers - We Thank You!

Pictured: Ross Widenor, Steve Larson, and Walter Salamant

Not pictured, but appreciated: Brien Croff, Todd Roberts, Nancy Roberts, Ann Gilmore, Zoey Green, and Kevin Lopez

ReWorks' offered the following services to assist in the zero waste effort:

- > Loaned 7 X-frame containers for the indoor collection of single stream recyclables,
- > Provided recommendations for recycling and waste reductions options,
- > Analyzed data of zero waste measurements,
- > Designed and promoted zero waste results flyer.
